RESPONSIBLE

HOW DO YOU TAKE RESPONSIBILITY?

'Responsible' is one of the VolkerWessels WAVE values

Taking responsibility calls for safety leadership. This applies to everyone, regardless of your role or position. You can take responsibility in different ways. For example, by:

Complimenting each other on exemplary behaviour

Speaking to colleagues

Reporting exemplary behaviour, unsafe acts and/or situations and incidents in the WAVE app

Conducting safety inspections and Management Engagement visits

Participating actively in conversations, work meetings and daily stands

Thinking about how to improve workplace safety

“I am responsible for my own safety and that of others”
