# Safe start 2024

We need you as safety leader too!

Fantastic that we can count on you as safety leader again this year! Before we get back after the holidays, the following. In 2023, we experienced (proportionately) more serious accidents in the first three months than in the rest of the year. Twelve serious accidents in January, February and March, resulting in colleagues being hospitalised, suffering permanent injuries or even worse...

Of course, we all want everyone to go home safely every day. That is why we ask you as a safety leader to be even more alert in the coming period to prevent these accidents

Unfortunately, Pierre knows all too well what it is to suffer a serious accident. Watch the video here.

## Make a safe start:

<p>Coordinate H&amp;S and work plans</p>  	<p>Receive the instruction</p>  	<p>Conduct a last-minute risk analysis</p>  	<p>Report situations using the WAVE app</p>  	<p>Look out for each other and work according to the WAVE values</p>
